pH Neutral

Why **pH LEVEL** is important

Do you know the pH level of your surface cleaner? Is it doing more damage than good?

Considering pH level when selecting cleaning products is critical. Choosing a solution that is not acidic or alkaline can assist to avoid damaging your surfaces. A neutral pH cleaner is typically the ideal choice for general purpose cleaning of surfaces. Pureflor's solutions are pH neutral.

FOR A BETTER
ENVIRONMENT

Clean with **PUREFLOR**

Regular cleaning is more beneficial to all floor coverings and is more cost effective than occasional heavy cleaning.

By using our **Hard Surface** cleaner you're able to break down stains & odours into their basic elements. Carbon, hydrogen and other elements readily integrate with the environment instead of polluting it.

1

Sweep or vacuum to remove loose dirt and prevent scratching.

2

Mop with Pureflor Hard Surface cleaner to remove bacteria. Our Pureflor spray mop is recommended.
