

POLYFLOR™
COVERING THE WORLD

LOVE WHERE YOU LIVE

MiPlank is the latest product range from Polyflor Australia. Created by a team of local designers, the range contains 15 unique shades purposefully created to replicate real timber. Featuring realistic knot and grain detailing and a smooth emboss, it looks exactly like a real hard wood floor without the need to worry about resealing or sanding your floors.

Manufactured to be an affordable, quick and easy to product to install; MiPlank can even be installed over existing tiles using a Kiesel floor preparation system.
